INTRODUCTION

NuVista Energy Ltd. (the “Company” or “NuVista”) has prepared the following audited report (“the Report”) of payments made to government entities for the year ended December 31, 2016 as required by the Extractive Sector Transparency Measures Act S.C. 2014, c.39, s.376 (“ESTMA” or “the Act”).

BASIS OF PREPARATION

The Report has been prepared in accordance with the requirements of the Act and the Natural Resources Canada (“NRCan”) Technical Reporting Specifications. Section 9 of the Extractive Sector Transparency Measures Act - Section 2.3 of the Extractive Sector Transparency Measures Act- Technical Reporting Specifications and Sections 3.1 to 3.6 of the Extractor Sector Transparency Measures Act Guidance (collectively the “financial reporting framework”). These Technical Reporting Specifications provides specifications with regards to the form and manner of reporting. The following is a summary of judgments and definitions that NuVista has made for the purpose of preparing the Report.

Payee

For purposes of the Act, a payee is:

- a) Any government in Canada or in a foreign state.
- b) A body that is established by two or more governments.
- c) Any trust, board, commission, corporation or body or other authority that is established to exercise or perform, or that exercises or performs, a power, duty or function of a government for a government referred to in paragraph (a) above or a body referred to in paragraph (b) above.

Payees include governments at any level, including national, regional, state/provincial or local/municipal levels. Payees include Crown corporations and other state-owned enterprises that are exercising or performing a power, duty or function of government.

Aboriginal and indigenous groups and organizations within Canada and in other jurisdictions may be regarded as governments for purposes of qualifying as a payee under the Act. However, the Act defers the requirement to report on payments made to Aboriginal governments in Canada, with reporting on these payments beginning on June 1, 2017. For the year ended December 31, 2016, there were no reportable payments to an Aboriginal payee.

The individual department, agency or other body of the payee that received the payment is disclosed, where practical, in a supplementary note to the Report.

Activities within the scope of the Report

Payments made by NuVista to payees relating to the commercial development of oil, gas and minerals (“commercial development”) are disclosed in this Report. NuVista makes payments related to its initial processing activities which are integrated with its extraction operations and comprise commercial development. The Report excludes payments that are not related to NuVista’s commercial development activities, as defined by the Act and in the associated Guidance document published by NRCan.

Project

Payments are reported at the project level except for payments that are not attributable to a specific project and are reported at the entity level. Corporate income taxes, which are typically not levied at a project level, are an example of this.

A “project” means the operational activities that are governed by a single contract, license, lease, concession or similar legal agreement and form the basis for payment liabilities with a government. However, if multiple such agreements are substantially interconnected, NuVista has aggregated such interconnected agreements into a single “Project” for reporting purposes, as permitted under the Act and the associated Technical Reporting Specifications published by NRCan. NuVista’s project is the Province of Alberta.

Cash payments

Payments are reported on a cash basis, meaning they are reported in the period in which they are paid. All information is reported in Canadian dollars (“Cdn\$”). Payments to the “same payee” that meet or exceed \$100,000 Cdn in one category of payment are disclosed. Payments disclosed are rounded to the nearest \$10,000 Cdn.

Payments made in situations of joint control

Where NuVista has itself made a reportable payment to a payee, regardless of whether NuVista is the operator, the full amount paid has been disclosed; this is the case even where NuVista as the operator has been proportionally reimbursed by its non-operating partners through a partner billing process. Payments by Non-operators on NuVista’s behalf are handled as outlined by the Extractive Sector Transparency Measures Act

Payment Categories

The information is reported under the following payment categories.

Taxes

This category may include taxes paid by NuVista on its income, profits or production. Taxes reported include property taxes, business taxes and certain provincial resource surcharges. Consumption taxes and personal income taxes are excluded.

Royalties

These are payments for the rights to extract oil and gas resources, typically at a set percentage of revenue less any deductions that may be taken.

Fees

This category may include rental fees, entry fees and regulatory charges as well as fees or other consideration for licenses, permits or concessions. Amounts paid in ordinary course commercial transactions in exchange for services provided by a payee are excluded.

Production entitlements

A payee’s share of oil, gas or mineral production under a production sharing agreement or a similar contractual or legislated arrangement is reported under this category. For the year ended December 31, 2016, there were no reportable production entitlement payments to a payee.

Bonuses

Signing, discovery, production and any other type of bonuses paid to a payee are reported under this category.

Dividends

These are dividend payments other than dividends paid to a payee as an ordinary shareholder of NuVista. For the year ended December 31, 2016, there were no reportable dividend payments to a payee.

Infrastructure improvement payments

These are payments which relate to the construction of infrastructure that do not relate primarily to the operational purposes of NuVista. For the year ended December 31, 2016, there were no reportable infrastructure improvement payments to a payee.
